

PS5 MARIUS BUILDER

Custom Marius-board builds. Hand-assembled to spec. Pick a base shell, choose your sticks, layer add-ons. Pricing below in AUD, all-in.

PLEASE READ BEFORE ORDERING

- **PC only** – will not work on consoles.
- Demanding **8K polling**; a PC with moderate specs is recommended. Polling rate can be reduced as required.
- **No gyro or touchpad** functionality.
- **Wired only** – battery removed, no Bluetooth.
- **No rumble** function.
- **No audio jack**.
- This is an **experimental board in early development**. The occasional fault or quirk may exist, as with any product in development.
- **50% deposit** required to commence your build; the remaining balance **must** be paid in full before any item is shipped.

01 THE BASE BUILD

PS5 CONTROLLER · MARIUS BOARD

A **brand-new** Sony first-party DualSense controller, rebuilt around the Marius PCB. Choose between standard **ALPS** or **FPS-proven TMR** modules at no extra cost. Ships with the **3-pin version of the Marius** board, updated firmware, factory-calibrated, and bundled with the **exclusive Marius Optimisation App** – developed in-house for our clients, a Windows utility that adjusts system settings to improve performance and reliability.

INCLUDED IN EVERY BASE BUILD

- **New** Sony first-party DualSense controller
- **3-pin Marius** main board · firmware-flashable
- Standard **ALPS** or **FPS-proven TMR** modules (your choice)
- Updated firmware & calibrated – ready to use
- **Exclusive Marius Optimisation App** – in-house Windows performance & reliability tuning

Verified 8K USB cables BETA · SOON Bench-verified for 8K polling	Shielded, full-speed cables individually bench-verified for stable 8K polling . Eliminates dropped reports from marginal or out-of-spec cabling.	TBA

INCLUDED

Every **full controller build** ships with **free express courier delivery** (AU-wide) and a fitted **hard carry case**. No additional surcharges. **Afterpay** available – must be requested at time of order.

ORDER & RETURNS POLICY

A **50% deposit** is required to commence your build, with the remaining balance to be paid in full prior to shipment.

CHANGE OF MIND

If you change your mind after the build has commenced, a **10% restocking fee** of the total order value will be deducted from your deposit. If you change your mind after proof of dispatch (POD), a **20% restocking fee** will be deducted from the total order value. In both cases, return shipping is at the customer's expense.

WARRANTY

All parts and labour are covered by a **12-month warranty** from the date of shipment. The warranty does not cover:

- Physical damage, including drops, liquid damage, or misuse
- Modifications or repairs carried out by anyone other than Slightly Optimised
- Normal wear and tear
- Damage caused by use of third-party accessories or components

THUMBSTICK DRIFT

Controllers fitted with **ALPS** potentiometer modules carry a **3-month** warranty against drift, due to the mechanical nature of the component. Controllers fitted with **Kalih Carbon, TMR, or Hall Effect** modules carry the full **12-month** drift warranty.

ASSESSMENT

Any controller returned under warranty will be inspected prior to assessment. Warranty claims found to be the result of the above exclusions will be declined, and a repair quote will be provided instead.

Custom builds are made to your specification – **please ensure all details are confirmed before your build begins**.
